Hi, Brian and Bill...based on our subsequent discussions, this has gone to the newspaper. I should know shortly the exact day it is running.

Lorraine

I have made edits to the document. I have one question about the date in the heading. I changed it to August 5, the date the public comment starts. Donn can you confirm that is the correct date to use, or should it be the date the notice goes into the paper?

Good afternoon, all...attached is the draft notice that I provided to Bill Little at the end of June. I am not sure if it's been circulated or not, but to my knowledge this is the current version. I can help with revisions, if needed, but it is in Word and can be edited. I hope this helps.

Lorraine, I believe you have Imperial Ref. could you add Brian's information to the Notice.

Donn

I just received an email from the Federal Register stating that my register notice will be published on Aug 5. Can you please send me the contact information for the contractor so I can send them the information to put in the local paper.

Thanks
